

ACQUISITION EXCELLENCE AT TSA

For more than three years, P3 Partners, LLC has helped TSA organizations reach their acquisition goals. Our experienced and reliable acquisition experts help TSA organizations effectively manage acquisition workloads in direct support of TSA's mission.

Better yet, P3 Partners' services can be acquired quickly through our TSA BPA # HSTS03-07-A-CIO922

PROVEN HISTORY – THE OASIS CONTRACT

In 2007, P3 Partners helped the Office of Information Technology successfully award a one billion dollar indefinite delivery indefinite quantity (IDIQ) contract vehicle for applications development. With our support, TSA was able to:

- Complete the nine-month procurement process on the published schedule;
- Award the contract without protest;
- Complete Congressional review with no comment.

As a result, TSA is successfully executing the largest task order thus far issued under the DHS EAGLE Contract.

CONTINUED SUCCESS

Today, P3 Partners, LLC continues to help TSA organizations address their day-to-day acquisition workload as well as support them in their efforts to reach their acquisition goals. For example, our team helped TSA place over \$200 million on contract for applications development by executing full procurement package development for several TSA-wide programs. Our experience includes familiarity with TSA specific contracting policies and procedures, including TSAITBUY and MD 102.

FULL RANGE OF ACQUISITION SUPPORT SERVICES

Our services span the complete range of acquisition support from pre-award and source selection, to full-scale post-award contract management services.
